LANYARDS

Printed Lanyards

Our role is to supply the lanyard you have imagined and dreamed of. You tell us your dream and we will aim to surpass your expectations.

Width, our most popular width is 15mm but we can supply printed lanyards at 10mm, 12mm, 20mm and 25mm as well.

We recommend the use of a safety breakaway on our lanyards (however this is optional).

Base colour of your choice or we can match to a PMS or Corporate colour.

We can print logos and text on your lanyard and matching PMS colours if required.

These are some of our most popular attachments

TO14 Single Card holder TO17 Dual Card holder

Silicon Cardholder for both Vertical and Horizontal card applications. Largest seller, these Silicon soft Cardholders, keep your cards encapsulated and the silicon provides a soft yet extremely durable construction. TO14V (Vertical) or TO14H (Horizontal) TO17V (Vertical) or TO17H (Horizontal)

CARDHOLDERS

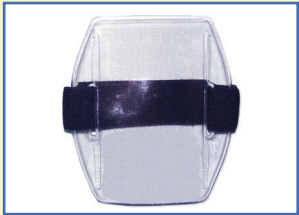

Solid Clear Rigid Cardholder

RHC The clear construction allows the rear of the card to be viewed, and are available in vertical and horizontal options.

RHK Very similar to the RHC but you also get the added bonus of a key ring, great for drivers licence or petrol cards.

Armband ID Holder

ARMH/V An active work environment may require an armband, to display your ID card. Our armband holder is durable and provides trouble free wear with instant visibility and is perfect for assembly lines, construction sites, warehouses, airports etc. Available vertical or horizontal.

Clear Rigid Dual Cardholder

Code 2810 – semi translucent rigid construction for dual cards. Allows Photo ID in the front and Proximity Access card on the rear.

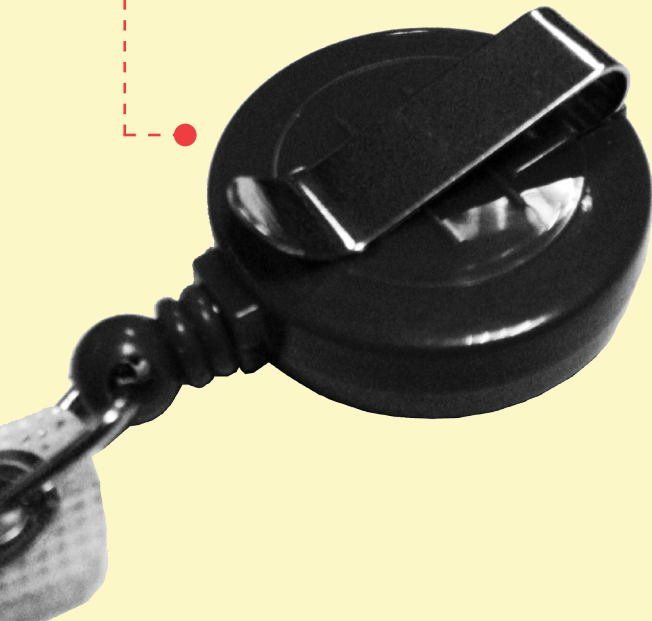

CARDHOLDERS RIGID

Are robust and durable and perfect for your ID Card and Proximity card or if you need to remove your card often for door access etc.

Silver/Black Clip-On Keypull

KPS Ideal for Photo ID, Cardholders and lightweight keys, compact and small - 32mm diameter. A very popular model, durable and economic. Can be personalized with your company logo - using a high gloss epoxy resin dome.

Black Keypull Large

KPL With stainless steel spring - 46mm diameter. Ideal for affixing to belt loops. Can be imaged with your company details.

Oval keypull

LXCR OVAL Silver and black stylish Keypull - 35 x 55mm ideal for affixing to belt loops.

Heavy Duty Silver/ Black Keypull

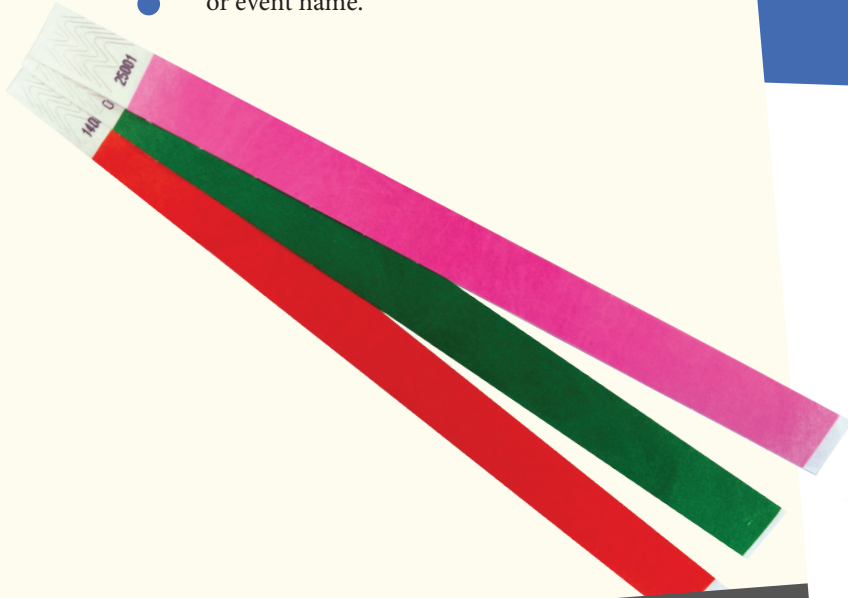

KPSHD With Stainless steel spring - 40mm diameter. Ideal for affixing to belt loop and heavy duty.

RETRACTABLE KEYPULLS

Tyvek Wristbands

We offer a variety of colours and Tyvek wristbands can be customized to include your company name, logo or event name.

WRISTBANDS

Made from lightweight, waterproof construction, Tyvek wristbands are a great way to identify customers. These come with an adhesive strip making them virtually tamperproof. Suitable for admission, shows, access control and one-day social events

Silicon wrist bands are perfect to advertise and customize with your special or company message. We supply debossed and printed in large colour range and they can include a RFID tag for security control or door access.

Plain Coloured Cards

These stock colours are available with or without magnetic stripe.

Silicon RFID

Mifare 1k, 4k, and is available with a fixed or adjustable strap.

We are one of New Zealand's major suppliers for preprinted cards. We pride ourselves on our quality, lead-times, service and highly competitive pricing.

Our preprinted cards can incorporate your own designs, magnetic stripe, signature panel, smartcard, contact and contactless RFID chips.

Printed in CMYK or metallic colours to meet your every requirement.

PREPRINTED CARDS

Our Card Processing Bureau is state of the art, we are one of the very few organisations in New Zealand that offer a “one stop shop”.

We can personalise your cards with any information you require on the card such as:

- Barcode
- Name
- Photo
- Expiry dates

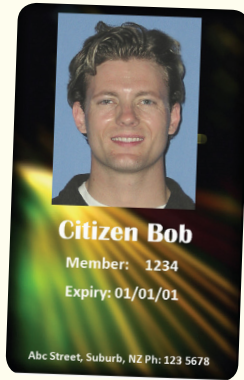

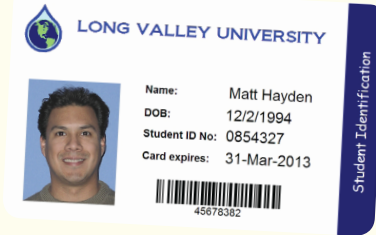

But our major point of difference to most other New Zealand Bureaus is we are able to offer an Electronic Card Matching and Mail-fulfillment Service.

This means we have automated equipment that enables us to image a letterhead with body text and address details, electronically match and affix your card to the personalised letterhead, fold and insert the letterhead/card into an envelope, ready to mail.

BUREAU SERVICES

Our photo ID's are high quality and durable. You can incorporate your Company logo, title, name, ID number, expiry date. Our card personalisation bureau offers a full design service at an affordable rate.

PHOTO ID CARDS

SHP3

Ideal for punching slots in ID cards, provides 3 punch options, round, rectangle or curved corners. Cost effective and easy to operate.

1700pch

Heavy duty cardpunch for larger volumes and fully adjustable to punch various locations on the card.

CARDPUNCH

We consider ourselves to be the most knowledgeable and service orientated solution providers for plastic card printers in the New Zealand market.

Having sold plastic card printers for many, many years we can tailor a solution to meet your needs whether you want to print a few cards a year or a million.

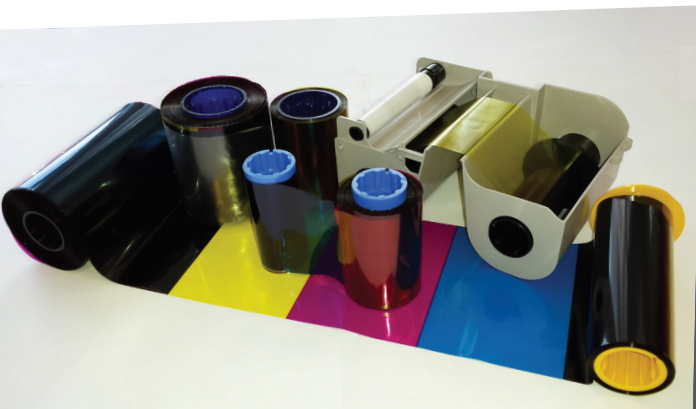

We are proud to represent Dai Nippon and Entrust formerly Datacard ID card printers in the New Zealand and Pacific region.

CARD PRINTERS

We are able to provide printer solutions for all aspects of card production including,

- Single and Dual Sided Printers
- Magnetic Stripe Encoding
- Contactless and Contact Chip Encoding
- Laminators
- Generic and Personalised Holographic Overlay
- ID Card Database Software
- High Speed Photo Capture
- Full after sale maintenance and servicing of the equipment we sell

We carry a large range of ID card printer consumables including;

- Full colour dye sublimation ribbons
- Mono colour dye sublimation ribbons
- Laminates – edge to edge and patch
- Holographic Laminates – generic and customer secure
- Cleaning cards
- Full after sale maintenance service

We cover all the major ribbon brands including;

- CIM Ribbons
- Entrust and Datacard Ribbons
- Zebra Ribbons
- Magicard Ribbons
- Dai Nippon Ribbons
- Fargo Ribbons
